**Investment Strategy**

The Sub-Fund's objective is to outperform the €STR index + 250 bps over a rolling 2-year period, combining income and capital appreciation. The investment universe of the Sub-Fund is independent and not constrained by any benchmark, consequently the Sub-Fund is actively managed and invests primarily in debt instruments issued by the governmental entities, national, public and financial entities or corporations, variable rates, fixed or indexed denominated in all currencies. The securities selected may be of various maturities, from all geographical areas (including so-called emerging countries). The Sub-Fund is built with an active management process that evolves according to market developments. The Investment Manager seeks to identify global trends and investment opportunities through the ongoing assessment of several factors, including macroeconomic and microeconomic fundamentals, market sentiment, monetary and fiscal policies, and valuation indicators.
